# Feather lightness in the space

Gramm is elegant and focused, meant to enlighten only what is needed. It is round-shaped, and its main feature is the possibility of rotation which allows a lot of flexibility. When you want a pleasant indirect light, you simply rotate it up with one move.

A name, a guarantee. Gramm will always bring a feeling of feather lightness to the space. Because Gramm is light, period.

## DESIGN:

Serge Cornelissen

# Product range

## Luminaire luminous flux/m

210 lm/m, 770 lm/m

## OPTICS

LGO, SOP

## LED COLOUR

927, 930, 940

## DRIVER

Casambi, DALI, FO

## DIAMETER

17,4 mm

# Coated and brushed colours

# Overview of features

# Soft ambient light

This slim luminaire brings elegance and softness with both its looks and light. The optic offers a pleasant illumination with low glare, perfect for all situations when you don't need a classic office lighting.

# Just rotate it for indirect light

You rotate it up with one move when you want a pleasant indirect light. This is its great advantage.
