

Lona

Actual anywhere

Round will never go out of style

Lona is a simple product, yet it can shape originality by creative use in a space. As it comes in different sizes and mounting possibilities, there are so many ways to combine the Lonas together.

Its ability to blend in and stand out makes it easy to match with any interior. Especially in unlimited spaces, Lona will add a focal point, without losing the feeling of spaciousness.

Product range

LUMINAIRE LUMINOUS FLUX:

940 - 26800 lm

INSTALLATION:

Recessed, Ceiling, Suspended

DIAMETER:

300 - 1500 mm

LIGHT DISTRIBUTION:

Direct, Direct / Indirect

Different spaces different sizes.

The size of the luminaire often depends on the size of the ceiling. You can have one big Lona in the middle of it or more smaller ones.

DIAMETER:

300 - 1500 mm

Be creative in compositions

Put them in a row and create a straight or a zig-zag line. Combine different sizes and arrange them randomly.

This is the way we prefer it. Be creative, Lona is really inspiring.

Wide range of colours

Choose from wide selection of frame colours.
Additional colours are available on request.

Choose the right diffuser

Use satin opal polycarbonate diffuser (SOP) for general illumination or soft-light prismatic diffuser (DPR) for task illumination.

Indirect light effect

Improve your experience with combination of direct and indirect illumination.

When turned on, Lona CDI creates a glowing ring, creating a decorative indirect accent on the ceiling.

Lona SDI provides illumination with minimum shadows and high visual perception.

Discrete or uniform

The classical recessed visible version is always a good choice when you want your ceiling to look clean and white when the light is off. When turned on, Lona gives a uniform lighting all over the space.

Blends in perfectly

Trimless installation where the diffuser is recessed into the ceiling brings out the light in a soft way, creating a pleasant feeling, that doesn't get out of style.

Light control

Wireless lighting control system Casambi offers a big variety of possibilities for a user to interact with the lighting. The app for smartphones and tablets is the most elaborated user interface. Besides the app, traditional wall switches, push buttons, Casambi's own scene controllers and many other control points can be used.

Made in Europe

Our products are carefully planned, manufactured and tested in order to ensure reliable operation throughout their life span, to limit the environmental impact as little as possible and to co-create pleasant living conditions. Quality is our highest priority and way of life.

High standards and reliable quality of our products were certified by numerous organisations.
