The old-school solution

Hyundai, Belgrade, Serbia

Elementary school Bonifika, Koper, Slovenia / Architecture: OmniaArhing / Photography: Miran Kambič

A traditional parking garage resident

It's popular for the mix of functions, fast installation, and affordability. With the presence sensors, it has the potential to decrease energy costs, making it appropriate for parking spaces, lit only if someone is present.

With quick connectors and click and lock system, the luminaire can be installed within minutes.
